## Mission Statement

Foard Panel Inc. (FPI), believes in building for a sustainable global future, both in our product and in our employees and their families. At FPI we manufacture high performance structural insulated panels that are rigorously tested and intended to withstand the test of time. We provide skilled panel design and panel engineering to make sure our projects are safe and meet the required codes. We provide experienced installation teams to efficiently build to a very high standard. As a team, we take pride in having built a company from scratch that has gained a strong reputation as being professional, experienced, and the best in the business. Our goal is to help create healthy, safe, energy efficient, and sustainable homes and commercial projects. Our company believes that to build right we need to build our team, therefore our employees are offered excellent benefits and FPI shares profits with all employees. Foard Panel Inc. stands for good people constructing high performance buildings, to create a better future for us all.
